EDUCATION

- **Ternopil Ivan Puluj National Technical University**
  Master's degree
  Computer Engineering

- **Mate Academy**
  Front End development

ABOUT ME

As a Junior Frontend Developer, I have experience with a stack of technologies, including HTML, CSS, JavaScript, TypeScript, React, Redux, Rest API and others.

I'm a graduate of Ternopil National Technical University, majoring in computer engineering. I have an intermediate level of English, good communication skills, which I have acquired from previous workplaces, and the responsibility for working in a team. I also have good self-learning skills, which helps me acquire new knowledge.

EXPERIENCE

2022-2023 - COMMERCIAL PROJECTS

- **CheeseCake shop**   nahirna-cake.com.ua
- **Logistic company**   ukrainets.in.ua

In my recent projects, I preferred NextJS. This framework has integrated Image Optimization, handy Routing, and SSR which improves performance and SEO. Also, I applied Tailwind, Redux toolkit, and Axios. I implemented the ability to receive order data in the Telegram bot, integrated the Facebook chat and Google Analytics service.

2021-2022 - PET PROJECTS

- Todo App (React, HTML, CSS, SCSS, REST API)
- Route Table (React, HTML, React Router, REST API)
- Employees Table (JS, HTML, CSS, SCSS)
- Dia website (HTML, CSS, SCSS)
- Bakery website (HTML, CSS, SCSS)

OTHER PROFESSIONAL EXPERIENCE

SE CHORTKIVSKYI KHP

- **2013–2020 - Head of Sales Department**
  My job responsibilities involved trading grains and wheat flour in Ukraine. In addition, I implemented the export functionality abroad, which allowed exporting products to countries such as Azerbaijan, China, Moldova, and EU countries.

TETRA CONSULTING

- **2010–2012 - Hardware Sales Manager**
  My job consisted of working with product vendors, buying and selling computer hardware and other related equipment.

- **2008–2010 - Computer Repair Technician**
  I was responsible for diagnosing and repairing computer hardware. In addition, I was involved in assembling custom PCs.
